IXL Math/Language Arts, Raz Kids, and Accelerated Reader are other programs that could be completed on snow days, holidays, and summer vacation. Students should complete the Kindergarten and First Grade level on IXL by the end of the summer of 2018.

Studies Show... Students lose 30 to 50% by the end of the summer. The gap is more significant for students who are behind in grade level already. It is a team effort to help our students reach their full potential.

Raz Kids is a online site that has audio books for each child's reading level. It is a special reading program to Remediate and Challenge students on their designated level.
